This interactive training welcomes all early care and education professionals to explore researched-based practices and strategies designed to reduce obesity rates of children in Wisconsin. The Active Early Guide is designed to help early care, and education professionals address childhood obesity by improving the physical activity environment in early care and education. The Active Early Guide contains valuable information to enhance the physical activity environment for early care and education programs. This training offers handouts, helpful tips, and tools to enhance your active learning experience.

Each program that attends will receive a **FREE Dr. Craft's Active Play! Fun Physical Activities for Young Children.** (valued at \$40)

**Let's Get Active!**
