WHY DOES IT APPLY TO ME? Child sexual abuse is likely the most prevalent health problem children face, with the most serious array of consequences. In fact, 1 in 10 children will experience sexual abuse before their 18th birthday. This means that whether you work with youth, are a parent, or are simply a member of a community, it is highly likely that someone you know or care for has experienced or is currently experiencing child sexual abuse. It will happen whether you are prepared to deal with it or not – unless you stop it from happening. And the good news, it can be stopped. **REGISTER TODAY!**
